

SAVE THE DATE

Monday April 27th, 2015

The Bay Area Resource Council (BARC) and the West Florida Regional Planning Council cordially invite you to the **28th Annual BARC Environmental Symposium**.

The purpose of this symposium is to highlight the year anniversary of the floods that impacted the Pensacola area and discuss the implications of stormwater. The Symposium will include presentations, outside demonstrations, and exhibitors. Topics will include presentations from experts on topics such as:

- [The Basin Management Action Plan \(BMAP\) Program – Bayou Chico FDEP](#)
- The National Pollution Discharge Elimination System (NPDES)
- Low Impact Development (LID) – US EPA
 - [Glynn Key](#)
 - [Admiral Mason Park](#)
- Nutrient loading, water quality criteria and Total Maximum Daily Loading (TMDL)
- Groundwater issues
- And much more

The Keynote Speaker for this event will be from the US EPA to present the benefits of Low Impact Developments (LID). Other invited speakers and attendees will include members of the public and private sector industry, as well as local, state, and federal officials.

The day-long symposium will be held at the University of West Florida's Conference Center and will start at 8:30 a.m.
