

William A. (Alex) Webster, PG

Alex is a licensed Professional Geologist and the Cleanup Section Supervisor for the Florida Department of Environmental Protection, Northwest District Office. He has a BS in Geology for the University of South Alabama and an MS in Geology from Auburn University. He spent 2 years working in the oil patch after graduate school before coming back to Pensacola. He worked as a project manager for AET and Enviro-Pro-Tech before joining FDEP in January of 2007 as the Brownfield Program Coordinator. In June of 2012 he was selected to be the Cleanup Section Supervisor.
