

Roger Register
Cardno, Inc.

Mr. Register is a Brownfields Practice Group Leader and branch manager for Cardno. Roger assists public and private sector clients to facilitate the redevelopment of environmentally impaired properties and the expansion and geographic coverage of all Cardno services in the southeastern United States and nationally. Roger has served or is serving as project manager for communities funded with U.S. EPA Brownfield grant awards including the cities of Deland, Tallahassee, and St. Marks, Escambia and Gadsden counties and the West Florida Regional Planning Council. His involvement with various aspects of federal and state Brownfields programs spans nineteen (19) years from the initial Brownfields legislation in Florida.

Roger previously served as the first Brownfields Program Manager for the Florida Department of Environmental Protection (FDEP) where he was responsible for statewide management of the Brownfields Redevelopment Program. His knowledge and regulatory experience of brownfield related issues benefits clients when redeveloping properties through his technical approach to assessment and cleanups, and the application of federal and state Brownfield incentives and grants. He advises clients on various state incentives in areas of job creation, Voluntary Cleanup Tax Credits and revolving loan funds. Roger has been instrumental in development and passage of Brownfields legislation in Florida since 2006 and the adoption of the FDEP's risk-based corrective action rules and principles that address contamination at petroleum, dry-cleaning, brownfields and other contaminated sites.

Mr. Register served as president (2008) of the Florida Brownfields Association. In addition to his tenure as an officer, he served on the board for five (5) years (2006-2011). He is a current board member of the Georgia Brownfields Association. Roger has earned degrees in Petroleum Engineering, B.S., University of Oklahoma and Business Administration, B.S., University of Florida.
